

## **Argon Corporation is Pleased to Announce that it Meets DFARS 252.204-7012 Requirements for Safeguarding DoD Information**

**Alpharetta, Georgia** – Argon Corporation, designing and manufacturing Commercial Off the Shelf (COTS) and customized rugged display monitors and computers, is pleased to announce that we have successfully made the IT system transition implementing NIST SP 800-171 requirements which fulfills the mandatory requirements of DFARS 252.204-7012. This process, which began in 2017 was recently completed.

Argon is committed to meeting all necessary regulations and laws for safeguarding Controlled Unclassified Information, or CUI, along with all requirements needed to effectively do business in the C4ISR military market.

To ensure full compliance, Argon employed the team of Secure Open Solutions (SOS), located in Alexandria Virginia. SOS provides customized end-to-end security solutions to identify and mitigate information systems vulnerabilities.

### ***About Argon Corporation***

*Argon Corp, a privately held company, headquartered in Great Neck, New York, and with production facilities in Alpharetta, Georgia, has over 26 years of experience in designing, producing and supporting a variety of COTS rugged displays, computing solutions, and peripherals, which have been deployed in land based, naval and airborne applications worldwide.
